Class: Year 6 Aqua

National Curriculum Year:

2017/2018

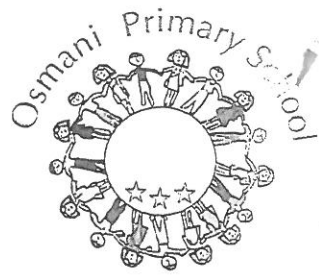

Reach For The Stars

Best moments in Year 6

Hasn't year 6 gone by really quickly? I can't believe it's almost over. Although I've had my downs, I truly believe that year 6 was the best year. Some of my favourite moments this year includes: Kingswood, Chessington World of Adventures and the bike riding workshop.

Before starting year 6, I had a mixture of feelings. I felt anxious because I had to work extra hard to pass my SATs. But at the same time I was happy because I was going to be one of the oldest students in Osmani.

I still remember - Kingswood, the place where I conquered my fear of heights. Who knew I could climb a wooden pole as tall as a lamp post, jump off it and grab a metal bar 50cm away! I'm not going to lie, my whole body was shaking when the instructor called out my name. But I did it, I completed the Leap of Faith. I always told myself - before any activity - that this is the

Reach For The Stars

only time I would get the opportunity to do this so I
overcame my fears and I did everything.

Another trip that I will cherish is our visit to
Chessington World of ~~Amusement~~ Adventures. Surprisingly,
I managed to get on the scariest rides we could find. A
few minutes before I got on the dreadful Dragon's
Fury, I thought about everything that could go wrong. I
might fall out my seat. Or even worse, the tracks could
break. However, none of this happened. I felt sorry for my
friend, she must have been deafened by my loud
screaming. Moreover, the one ride I will never forget is
the Monkey Swings. I ended up so wet that it took me the
whole ride home to dry off.

One particular activity I will remember is the bike
riding workshop. What a thrilling experience it was!
I can't even remember the last time I rode a bike
before the workshop. Even though I fell off my bike a
bunch of times, I tried again and eventually learnt how

Reach For The Stars

to ride a bike. Now that I have the ability of riding a bike, I can travel to places on my own in the future.

Considering all my achievements this year, I am most proud of being a part of the strings awards group. This is because I learnt how to play professionally and I also played live in a concert. It was a one-in-a-lifetime experience.

Having a growth mindset means to always persevere and never give up. Next year I will strive to make it to the higher set so I get good grades. I would also like to carry on playing the cello and learn how to play the violin.
