

Year 3 Project Homework

Title: Rivers of Time: Ancient Egypt and the River Nile

This homework has been set from the week beginning 14th February 2022. The homework project is due on Wednesday 2nd March. For this project homework, can you please select one or more activities below and complete them. You will present what you have found out to the rest of your class. Please ask for whatever paper you need from your teacher during the homework project. This homework project is for the whole family to get involved with and we would encourage children to get help completing any of the activities.

Use a paper plate and explore gold paint, string and stick on gems to make an Egyptian necklace.

Roll a sausage from salt dough and a flat long shape using a rolling pin. Use these to form a cartouche and mark make using dough tools or paint when dry.

Make a model of a pyramid (perhaps edible?) and create text for labels giving information about it.

Use Egyptian number hieroglyphs to solve and create number sentences.

Create a Nile delta model using a foil tray, tin foil, clay river and topsoil. Add pyramids and trees. Plant seeds in the topsoil and see what happens when water is poured into the river each day to "flood" the Nile delta.

Use a toilet roll, scissors, string or rolled paper, PVA glue and golden paint to make an Egyptian bangle.

Estimate how long a piece of toilet paper from a roll would need to be to mummify the child's finger/hand/foot/arm/leg/whole body and check.

Free choice: Pick a project of your own to complete.
